AUG 01 2016  
SGT. JOHN NOLAN

DATE: November 2, 2009

APPLICANT: Dorian Pumalo

INVESTIGATOR: Investigator Paul A. Raymond

SUBJECT: Background Investigation Summary--"FB"

The following is the background investigation summary for Mr. Dorian Pumalo who has applied for the position of Police Officer with the City of Fort Lauderdale, Florida.

On July 14, 2009, the applicant passed an Oral Board. On October 26, 2009, he was interviewed again by this investigator and given a Conditional Job Offer. He remained consistent with what he had revealed to the Oral Board. He did admit that he has frequented "strip clubs" on 50-100 occasions and has received approximately 50 lap dances. He also stated he has gone to the "Champagne Room" for a private dance but has not engaged in any illegal sexual activity at any time. He indicated that he has been to strip clubs less than 10 times since January 2009.

On October 30, 2009, the applicant was administered a polygraph examination by Detective John Rose. A reaction indicative of deception was noted to the following question:

• Are you now lying about being arrested or detained by the police?

In the pre-test interview the applicant admitted in December 2008 or January 2009 he and two friends were in a pool in Pembroke Pines when the police showed up, placed them in handcuffs, and questioned them about being possible "flashing" suspects. The applicant stated that the police had actually responded to the wrong apartment complex and that they were not the suspects in question. When this was confirmed the applicant and his friends were released. The applicant did reveal this incident to the Oral Board as well as to this investigator. On the issue of theft the applicant indicated in addition to taking change from his parents, which he had told the Oral Board, he also admitted to taking approximately 10 towels over time from several hotels.

On the issue of his drinking the applicant admitted that he as been under the influence of alcohol 40 times this year and 48 times last year. These are estimates based on his response that he gets drunk every week-end. When asked to explain what he interpreted as being drunk, the applicant replied "unable to walk and talk." The applicant also admitted that he had last driven under the influence in April 2009 upon leaving a birthday party.

### CONCLUSION:

The applicant's frequent visits to strip clubs and the number of times he has been intoxicated in the past two years raises serious concerns about his moral turpitude and drinking habits. It is recommended that Dorian Pumalo's application processing be closed and considered as a "FB".
